

Two Easy Steps To Become a Certified OPEN FOCUS™ Trainer and/or Certified Neuro-Synchrony Trainer

1. Visit our Princeton, New Jersey office for individualized mini-intensive training (11 hourly sessions with Dr. Les Fehmi or Susan Shor, MSW, over a period of two to three days). The cost is \$295 for the first session (the Intake Evaluation); and \$195 for each additional hour of training. The number of hours required for certification depends on whether the certification is for a Certified Open Focus Trainer, a Certified Neuro-Synchrony Trainer or both. To become a certified Neuro-Synchrony Trainer it is necessary to purchase the NS-500sx trainer.*
2. Attend our Brain Synchrony Workshop, “The Couples Connection” and OPEN FOCUS™, which is held twice a year, spring and fall. For certification you will require an additional 4 hours of training, must be scheduled one or two days before the workshop (Thursday) and the day after the Workshop (Tuesday). For more information about our workshop and its costs, please visit our website, www.openfocus.com/WORKSHOP.html.

If you are interested in registering for either of these options, contact Phyllis at 609-924-0782 on Tuesdays, Wednesdays or Thursdays between 10am-5pm (EST).

*To Become a Certified Neuro-Synchrony Trainer, you will need to purchase our equipment. The cost of the NS-500sx plus accessories is \$6385.00. If you attend our workshop, you will receive the discounted price of \$4875.00. A workshop discount price is also available for our 5 Channel Synchrony Converter, which also can be used with existing Neurofeedback equipment.
